# SIET:An Introduction

- SIET were initially established as ET cells in state department of education.
- In 1984, with the establishment of CIET, the ET cells were also converted into state institute of Educational technology(SIET).
- The State institute educational technology, SIET was constituted by Government of India in all the State with an intention to Promote the Level of learning and also to educate the students's with the help of Radio and Television.

- State Institute of Educational Technology has been set up in 6 states such as Andhra Pradesh, Bihar, Gujarat, Maharashtra, Orissa and Uttar Pradesh in order to implement the INSAT for education project effectively.
- SIET Kerala is the latest in the array of 7 siet's in the country.

- SIET preparation of video/audio programmes for the children of 5 to 17 years of age (class 1 to class 12 )and the teachers in the regional language in the form of supportive factor for the conventional classroom teaching.

- State institute of educational technology, Patna was established on 10.9.1985 to promote quality in primary education through INSAT-1B. The institute is fully funded by the union Ministry of Human Resource Development and functions under the administrative control of the education department of the government of Bihar.
