INTRODUCTION

India is a land of customs, tradition and practices which have been developed through centuries to centuries. These customs, tradition and practices become the consciousness of our society. we worship female Goddesses, give importance and respect to our mothers, daughters, sisters, wives, friends etc. But at the same time, we can't ignore the patriarchal system of our society and male superiority. In fact, principles of gender equality are enshrined in our constitution . The constitution of India not only grants equality to women but also empowers the state to adopt measures of positive discrimination in favour of women.
